SOLETTA MACHINE LEARNING

github.com/solettaproject/soletta-machine-learning

Provides APIs for client-side AI and an easy to use flow-based Soletta module. Initially supporting neural networks and fuzzy logic learning.

SOLETTA DEVELOPMENT APPLICATION

github.com/solettaproject/soletta-dev-app

Web-based environment where developers can write, visualize, modify, run, test and debug their Soletta FBP programs on their target board.

SOLETTA VISUAL EDITOR

github.com/solettaproject/soletta-visual-editor

A visual editor designed to ease programming with built-in node types while allowing node type creation and customization.
